Water Services (Page W-18)

General footnotes

Financing of new water services is provided by special assessment charges. The total cost of installing new water services is divided by the number of new services.

Services added that are not part of a new project are customer financed at \$550 per service.

Explain all reported Adjustments.

A physical inventory was worked on is 2003. Services were mapped out and recounted resulting is a need to adjust previous figures used to actual number of services.

Hydrants and Distribution System Valves (Page W-20)

General footnotes

Number of distribution valves operated during the year is zero because all of the valves were operated in 2002 and they are required to be operated every 2 years.
